

Symposium “Good particles – bad particles” – Preliminary Programme

October 24th, 2013

12 – 1pm	Arrival and Light Meal
1:00 pm	Welcome - H. Fehrenbach, Borstel
1:15 pm	Session 1 – ultrafine/nano particle exposure and health hazard
	T. Schikowski* Epidemiology
	W. Kreyling* <i>Lung deposition and biokinetics of inhaled nanoparticles</i>
	free presentations
3:30 pm	coffee break
4:00 pm	Session 2 – pulmonary effects of ultrafine/nano particle exposure
	P. Gehr* <i>Interaction of inhaled particles with lung tissue – to enter or not to enter, that is the question</i>
	G. Oberdörster* Toxicology (Special Lecture)
	free presentations
7:00 pm	Diner

October 25th, 2013

8:30 am	Session 3 – assessment of nanosafety/nanohazards (together with the Leibniz research association Nanosafety)
	T. Tetley* In vitro Models
	presentations by the Leibniz research association Nanosafety
	free presentations
10:40 am	coffee break
11:10 am	Session 4 – assessment of nanosafety/nanohazards of carbon black nanoparticles
	presentations by the BMBF-funded Consortium CarbonBlack
1:00 pm	lunch
2:00 pm	Session 5 – various aspects of nanoparticle/lung interactions
	free presentations
4:00 pm	closing discussion
4:30 pm	departure

* invited speaker (confirmed)
